01 — BIO

The healthy raver.

Jindream makes drum & bass that hits heavy but feels beautiful: hard-hitting drops, emotional vocals, catchy melodies and happy-sad chords.

Jindrich has been producing for about ten years. As Confusion he released 100+ tracks, reached 1.5M+ streams, played across Europe and in Colombia, and got support from Deadmau5, Pendulum and A.M.C. In 2026 he released the 14-track concept album *Closer*, and moved from dark neurofunk to the heavy, beautiful dancefloor sound he plays today, under a new name: Jindream.

Music was always his escape. Today it is what keeps him present. Outside the studio: a clear mind, personal growth and a healthy life.
